

CAWTHORNE PARISH COUNCIL
PARISH NOTES 2026/2027

As we move into the new Parish Council year, we are pleased to welcome three newly elected councillors who joined the Council in May. They have already settled into their roles well, and we look forward to the fresh ideas and enthusiasm they bring as we continue working for the benefit of our community. The Council has been busy progressing a number of projects and responding to issues that matter to residents. Work continues on reviewing speed limits through the village, with road safety remaining a key priority. We are also considering ongoing parking concerns and exploring ways to improve the situation for both residents and visitors, while recognising the unique character of Cawthorne.

Alongside these larger issues, the Council continues to oversee the day-to-day maintenance of the village, helping to keep Cawthorne looking its best. We are delighted that this year's hanging baskets are now in place, bringing a wonderful display of colour throughout the village. Our thanks go to everyone involved in organising, planting and maintaining these displays, which are greatly appreciated by residents and visitors alike. The recent Summer Fete was another tremendous success, with a fantastic turnout and a wonderful community spirit on display throughout the day. Events such as these showcase everything that makes Cawthorne such a special place to live, and the Parish Council would like to thank everyone who worked so hard behind the scenes, as well as all those who came along to support the event.

As always, the Parish Council welcomes comments and suggestions from residents. We encourage everyone to keep up to date with Council business by attending meetings where possible or following updates through the Parish Council's usual communication channels.

We look forward to continuing our work throughout the coming year and thank everyone for their ongoing support in helping
